CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Mr. Glenn A. Dell
V.P. Consumer Packaging Group
International Paper Company, Liquid Packaging
2100 E. Byberry Road
Philadelphia, PA 19116

Re: Facility Name: International Paper Company - Liquid Packaging - Philadelphia
I. D. # PAD 00 228 2002

Dear Mr. Dell:

On May 23, 1983 the Environmental Protection Agency received correspondence from your facility requesting withdrawal from the Hazardous Waste program as a treatment, storage, or disposal facility.

It is a policy that EPA will go through specific procedures to terminate interim status for facilities who wish to withdraw their Part A of the application for a RCRA permit. The first step in the procedure is to call-in Part B of the application for a permit. Therefore, this letter constitutes a formal request for Part B of your application for a hazardous waste management facility permit under the Resource Conservation and Recovery Act (RCRA) for the facility referenced above. This request is made under the authority of regulation 40 CFR §270.

If it is your decision, as you indicated in your letter, to withdraw from the system, then please send EPA a letter stating that you are not going to submit a Part B for a RCRA permit within 30 days upon receipt of this letter. We will then continue with the procedures for termination of interim status. However, if you should decide to pursue a RCRA permit and will submit a Part B, it will be due to EPA no later than June 15, 1984.

If you have any questions, please do not hesitate to call Ms. Shirley Bulkin, a member of my staff, at (215) 597-4269.

Sincerely,

Stephen R. Wassersug, Director
Air and Waste Management Division

Re: International Paper Company
Liquid Packaging Facility
Philadelphia, Pennsylvania
EPA ID No. PAD002282002

Dear Mr. Wassersug:

In response to your letter dated December 15, 1983, International Paper Company wishes to withdraw hazardous waste TSD facility status for the subject facility. As explained in our May 23, 1983 letter to your agency, this facility does not store its hazardous waste on-site for 90 days or more. Therefore, we will not submit Part B of the application for a RCRA permit for this facility. As we indicated in our May 23 letter, however, we wish to retain generator status and the EPA ID number for the facility.

Should you need additional information please contact Gil Sheerer in our Regional Environmental Services Office (404/447-1474).

Very truly yours,

Glen A. Dell

Re: International Paper Company
Liquid Packaging
2100 E. Byberry Road
Philadelphia, Pennsylvania
EPA I.D. No. PAD 002282002
Reference: 3HW33

Dear Mr. Wassersug:

In response to your letter dated April 17, 1986 International Paper Company submits the following:

- Enclosed is a section of USGS topographic map showing facility location. Enclosed also is a drawing of facility property showing the location of the plant's hazardous waste tank storage area and non-hazardous waste (trash) handling facilities.
- The hazardous waste tank storage area consists of a 20' x 20' curbed, fenced concrete pad on which is located a 5' long x 5' wide x 3' high covered storage tank constructed of 1/4" steel with a volume capacity of 560 gallons. A roof protects the concrete pad and storage tank from precipitation. The function of the storage area is the short term (less than 90 days) storage of hazardous waste consisting of printing ink and solvent waste. The waste is manually placed in the tank as it is generated. There are no ancillary systems associated with this unit. The quantity of hazardous waste currently handled by this unit is approximately 250 gallons per month. This unit has been in operation since June 1980.

- The non-hazardous (trash) handling facilities consist of a facility-owned trash compactor, 5'5" x 10'4" x 4'3" and one, or on rare occasions two, hauler-owned steel trash containers, 21'5" x 7'6" x 7' with a capacity of 41.6 cubic yards each. The function of these units is the compaction and storage of non-hazardous waste such as waste paper, office waste, lunch room waste, empty ink containers and miscellaneous trash. These wastes do not contain hazardous waste constituents. Quantity of non-hazardous waste generated is approximately 40 cubic yards per week. The waste is removed from the site approximately once per week. These facilities have been in operation since 1978.
- To our knowledge, there has never been any release or possible release of hazardous waste or hazardous waste constituents from any SWMU at this facility.

SUPPLEMENTARY INFORMATION:

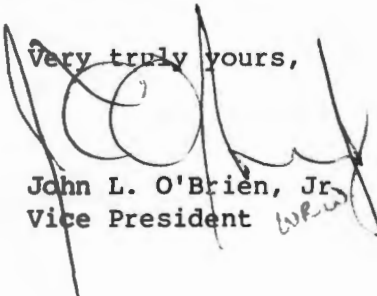

- This facility handles only hazardous waste generated in its own manufacturing operations.
- In 1980, Notification of Hazardous Waste Activity and Part A permit application were submitted as a protective measure due to our inability at the time to foresee whether or not the facility could readily have its hazardous waste disposed of in less than 90 days.
- It was subsequently determined that the facility could routinely have its hazardous waste disposed of in less than 90 days and request for withdrawal of TSD facility status was submitted in May 1983.
- In December 1983, your Agency formally requested Part B permit application in keeping with policy procedure.
- In January 1984, in accordance with your instructions, International Paper Company advised your Agency that Part B permit application would not be submitted. No further communication was received from your Agency until your April 17, 1986 letter.
- In April 1984, Pennsylvania DER advised that interim status as a TSD facility had been terminated.
- This facility does not treat, store for 90 days or more, or dispose of hazardous waste on site. The facility is a generator of hazardous waste only and is not seeking nor does it require an RCRA permit.

If there are any questions, or should additional information be required, please contact Mr. Gil Sheerer, Regional Coordinator, Environmental Services at (404) 447-1474.

February 25, 1983

Mr. E. F. Bonelli, Manager
International Paper Company Liquid Packaging
2100 Byberry Road
Philadelphia, PA 19116

Re: EPA Identification No. PAD 002282002
Facility Name: International Paper Company Liquid Packaging
2100 Byberry Road
Philadelphia, PA 19116

Dear Mr. Bonelli:

This letter constitutes a formal request for Part B of your application for Hazardous Waste Management Facility Permit under the Hazardous Waste Management Regulations, 25 PA Code Chapter 75, Subchapter D, for the facility referred above. This request is made under the authority of Section 75.265(z)(6) of the regulations. You should refer to the hazardous waste management regulations that appeared in the Pennsylvania Bulletin dated September 4, 1982, which was recently mailed to you for the requirements of the Part B application. Your Part B application must be submitted no later than September 1, 1983. If there is information that is being claimed as confidential, indicate this according to the requirements of Section 75.265(z)(16).

If your facility is not a TSD (treatment, storage or disposal site), or if you stopped functioning as a TSD facility after November 19, 1980, or if you qualify under the Permit by Rule provision of the regulations, it will be necessary for you to contact one of our field offices, and to arrange for an inspection to confirm this. Our field offices and the areas covered are the Bethlehem Office, phone number 861-2070, covering Berks, Lehigh and Northampton Counties; and the Norristown Office, phone number 631-2420, covering Philadelphia, Bucks, Chester, Delaware and Montgomery Counties.

If you functioned as a TSD after November 19, 1980, it will be necessary for you to submit four copies of a closure plan to Mr. Bruce Beitler of this office.

Enclosed are reference checklists for your Part B application that are to be used to insure your application contains the minimum information required. These checklists are to be used to assist you in your Part B application and our subsequent review, although the checklists are not a substitute for reviewing and addressing the hazardous waste regulations themselves. Because you may be anticipating additional facilities at your location, we have included checklists for every type of facility covered by the Department requirements. Please use only those checklists that apply to the types of facilities for which you are making application.

CONDITIONS OF OPERATION DURING
INTERIM STATUS

ORIGINAL
(Red)

Date Prepared: July 23, 1981

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

I. Facility name, location, and EPA Identification Number.

Name: International Paper Company - Liquid Packaging

Location: 2100 E. Byberry Road
Philadelphia, PA 19116

EPA I.D. No.: PAD 00 228 2002

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: Mr. G. A. Dell- Vice President of Cosumer Pkg. Grp.

Operator's Name:

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
<u>S02</u>	<u>500 Gals.</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

<u>D001</u>	<u>F002</u>	<u>F003</u>	<u>F005</u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Re: Acknowledgment of Application for
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

JUL 23 1981

Mr. G. A. Dell
International Paper Company-Liquid Packaging
2100 E. Byberry Road
Philadelphia, PA 19116

Dear Mr. Dell:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

Re: Withdrawal of Hazardous Waste TSD
Facility Status
International Paper Company
Liquid Packaging Facility
Philadelphia, Pennsylvania
EPA I.D. No. PAD 002282002

Dear Ms. Bulkin:

The subject facility generates a printing ink/solvent waste which is identified as hazardous under RCRA. In 1980, it was determined that the facility should be identified not only as a generator of hazardous waste but also as a TSD (storage) facility due to our inability at the time to foresee whether or not the facility could readily have its waste disposed of in less than 90 days. Consequently, as a precautionary measure, Notification of Hazardous Waste Activity and Part A - Hazardous Waste Permit Application were submitted to your Agency in 1980 identifying the facility as a generator and as a storer of hazardous waste.

It has now been determined that the facility can routinely have its hazardous waste removed from the site for proper disposal in less than 90 days. International Paper Company therefore herewith requests withdrawal of the Notification as a hazardous waste TSD facility and the Part A - Hazardous Waste Permit Application for this facility. International Paper Company does, however, wish to retain hazardous waste generator status and the EPA I.D. number for this facility.

Enclosed is a completed subsequent Notification of Hazardous Waste Activity identifying this facility only as a generator of hazardous waste.

Re: Facility Name: International Paper Company - Liquid Packaging - Philadelphia
I. D. # PAD 00 228 2002

Dear Mr. Dell:

On May 23, 1983 the Environmental Protection Agency received correspondence from your facility requesting withdrawal from the Hazardous Waste program as a treat, store, or disposal facility.

It is a policy that EPA will go through specific procedures to terminate interim status for facilities who wish to withdraw their Part A of the application for a RCRA permit. The first step in the procedure is to call-in Part B of the application for a permit. Therefore, this letter constitutes a formal request for Part B of your application for a hazardous waste management facility permit under the Resource Conservation and Recovery Act (RCRA) for the facility referenced above. This request is made under the authority of regulation 40 CFR §270.

If it is your decision, as you indicated in your letter, to withdraw from the system, then please send EPA a letter stating that you are not going to submit a Part B for a RCRA permit within 30 days upon receipt of this letter. We will then continue with the procedures for termination of interim status. However, if you should decide to pursue a RCRA permit and will submit a Part B, it will be due to EPA no later than June 15, 1984.

If you have any questions, please do not hesitate to call Ms. Shirley Bulkin, a member of my staff, at (215) 597-4269.

Sincerely,

Stephen R. Wassersug, Director
Air and Waste Management Division

April 1, 1981

Mr. H. J. Weaver, Door Dealer
Business and Services
International Door Company
Suite 100, 1875 New Hope Parkway
Norristown, PA 19381

Re: Solid Waste Facility
Identification No. 04000232000

Dear Mr. Weaver:

It has been determined by our staff that you are not a TSD facility or that you qualify under the permit by rule provision in our hazardous waste management rules and regulations.

Therefore, you will not have to submit a Part 3 hazardous waste permit application and we are returning your Part 3 application if you previously submitted one to the Department.

This means you no longer have interim status as a TSD facility and you may not engage in this type of activity at your facility. You will not be required to secure a hazardous waste management permit for your facility, but you are still subject to any portion of the hazardous waste management rules and regulations published in the Pennsylvania Bulletin September 4, 1980 which pertain to your facility. This includes the submission of a closure plan if you operated as a treatment storage or disposal facility after November 10, 1980.

If you qualify under the permit by rule provision of the regulations then you may continue to operate as a hazardous waste facility in accordance with DEP or local sewer authority requirements.

This does not release you from Environmental Protection Agency requirements. You will have to contact their Philadelphia Regional Office to verify that you do not have to submit a Part 3 application to their agency.

If you have any questions concerning this, I can be reached at the above number.

Very truly yours,

PAF002282002
September 9, 1985

NOTICE OF VIOLATION

Dear Mr. Chartrand:

This letter is to confirm the findings of the Department's referenced inspection of your hazardous waste activities. Requirements for hazardous waste facilities are contained in Chapters 75.260 through 75.267 of the Rules and Regulations of the Department. Violations of applicable sections of these regulations found during our inspection are as follows:

75.262(f)(1)(iii) Containers of 110 gallons or less marked with required Pennsylvania label. **def 1**

75.262(g)(1)(ii) Wastes stored in proper containers and properly marked and labeled. **110 gal**

75.262(g)(1)(iv) Containers clearly marked with accumulation date and visible for inspection.

75.262(g)(1)(ii) Containers managed in accordance with 75.265(q).

55 gallon drums used for hazardous waste holding are required to have a Pennsylvania Hazardous Waste label showing the accumulation date of contents, old labels should be removed when drums are pumped out. Drums can be held in curbed holding area provided adequate volume exists within the curb exists, refer to 75.265(q)(10)(iii) and 75.265(r)(6). Review of existing PPC plan on-site at time of inspection indicates an up-date is necessary. This was discussed with Mr. John McDonough.

You are hereby notified of both the existence of these violations as well as the need to provide for their prompt correction. Toward this end, you are requested to submit to the Department within fourteen (14) days a proposed program and schedule for abatement of these violations.

Re: Bureau of Waste Management
PAC Plan Review
EPA-12222402
February 24, 1989

Dear Mr. Bartram:

The Bureau has just completed its review of your plan, and has determined that the plan has not been fully and properly developed according to the Department's PAC plan guidelines, and does not have the proper format as found on page 2 of the guidelines ("Table 3 - Elements and Format of a PAC Plan").

Therefore, the Department hereby recommends that International Paper Company retain the services of a qualified consulting firm to assist the company in the proper development of a revised plan. You should be aware that the Department has required the development, implementation and periodic revision of PAC plans ever since the publication of its hazardous waste regulations in 1980. Subsection 75.265(f)(4) states that "The contingency plan and all revisions and amendments thereof shall be prepared and implemented in accordance with the Department guidelines and submitted to the Department.... as the Department may prescribe".

After the revised plan has been completed, two copies of the plan should be submitted to this office for review, as before.

Please advise this office in writing at your earliest convenience regarding International Paper's schedule for operating its PAC plan. If you have any questions, please feel free to call me at 270-1551 or 270-1943.

CERTIFICATION OF PROPER DISPOSAL USED PETROLEUM LIQUID STORAGE TANKS

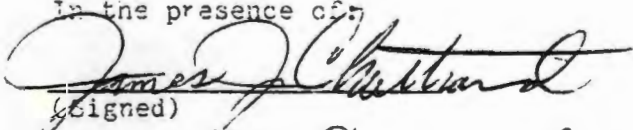

The undersigned hereby declares that he has disposed of the tanks removed from the property of International Paper Co., Inc., hereinafter known as "the Company" located at 2100 E. Byberry Ave. Philadelphia, in the County of Philadelphia and State of Pennsylvania, in a manner consistent with all applicable federal, state and local laws governing such disposal.

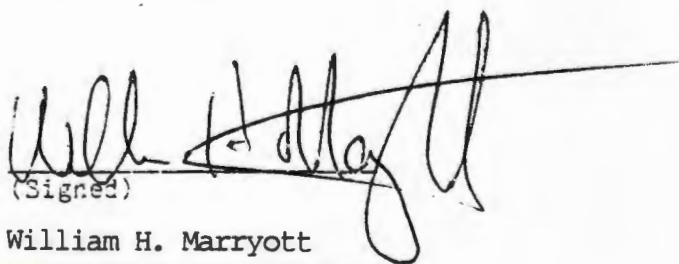

The undersigned further certifies that the Company has notified him of the previous use of the tank in the storage of toxic, explosive, flammable petroleum liquids, and that it is sold only as scrap in the case of a metal tank, he having rendered it useless as a storage vessel by mechanical rending of its walls. In the case of fiberglass tanks, the undersigned certifies that the tank is sold as scrap or it must be recertified by the manufacturer before ANYONE can re-use for fuel storage, whichever is appropriate.

The undersigned assumes all risk with respect to the TANK and will indemnify and save the Company harmless from all claims and liability of every kind in any way connected with its use of or existence.

Signed at International Paper, this 8 day of December, 1988.

Rec'd 4/14/86 RES

GENERAL INFORMATION

Notification is required by Federal law for all underground tanks that have been used to store regulated substances since January 1, 1974, that are in the ground as of May 8, 1986, or that are brought into use after May 8, 1986. The information requested is required by Section 9002 of the Resource Conservation and Recovery Act (RCRA), amended.

The primary purpose of this notification program is to locate and evaluate underground tanks that store or have stored petroleum or hazardous substances. It is expected that the information you provide will be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

Who Must Notify? Section 9002 of RCRA, as amended, requires that, unless exempted, owners of underground tanks that store regulated substances must notify designated State or local agencies of the existence of their tanks. Owner means — a) in the case of an underground storage tank in use on November 8, 1984, or brought into use after that date, any person who owns an underground storage tank at the time of storage, use, or dispensing of regulated substances, and b) in the case of any underground storage tank in use before November 8, 1984, no longer in use on that date, any person who owned such tank immediately before discontinuation of its use.

What Tanks Are Included? Underground storage tank is defined as any one or combination of tanks that (1) is used to contain an accumulation of "regulated substances," and (2) whose volume (including connected underground piping) is 10% or more beneath the ground. Some examples are underground tanks storing: 1. gasoline, oil, or diesel fuel, and 2. industrial solvents, pesticides, herbicides or fumigants.

What Tanks Are Excluded? Tanks removed from the ground are not subject to notification. Other tanks excluded from notification are: 1. farm or residential tanks of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes; 2. tanks used for storing heating oil for consumptive use on the premises where stored; 3. septic tanks.

- 4. pipeline facilities (including gathering lines) regulated under the Natural Gas Pipeline Safety Act of 1968, or the Hazardous Liquid Pipeline Safety Act of 1979, or which is an intrastate pipeline facility regulated under State laws;
- 5. surface impoundments, pits, ponds, or lagoons;
- 6. storm water or waste water collection systems;
- 7. flow-through process tanks;
- 8. liquid traps or associated gathering lines directly related to oil or gas production and gathering operations;
- 9. storage tanks situated in an underground area (such as a basement, cellar, mine, or tunnel) if the storage tank is situated upon or above the surface of the floor.

What Substances Are Covered? The notification requirements apply to underground storage tanks that contain regulated substances. This includes any substance defined as hazardous in section 101 (14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), with the exception of those substances regulated as hazardous waste under Subtitle C of RCRA. It also includes petroleum, e.g., crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).

Where To Notify? Completed notification forms should be sent to the address given at the top of this page.

When To Notify? 1. Owners of underground storage tanks in use or that have been taken out of operation after January 1, 1974, but still in the ground, must notify by May 8, 1986. 2. Owners who bring underground storage tanks into use after May 8, 1986, must notify within 30 days of bringing the tanks into use.

Penalties: Any owner who knowingly fails to notify or submits false information shall be subject to a civil penalty not to exceed \$10,000 for each tank for which notification is not given or for which false information is submitted.

INSTRUCTIONS

Please type or print in ink all items except "signature" in Section V. This form must be completed for each location containing underground storage tanks. If more than 5 tanks are owned at this location, photocopy the reverse side, and staple continuation sheets to this form.

Indicate number of continuation sheets attached

ST: Notification of Removal of
Underground Storage Tanks

TO: Jim Chartrand
Philadelphia Liquid Packaging

Regulations require that your Department of Environmental Resources be notified of the removal of registered underground tanks.

Enclosed is a draft cover letter and a marked-up copy of the Notification for Underground Storage Tanks which was submitted to the State for your facility in 1986.

Please have the letter typed on your letterhead and submit, with the enclosed Notification form, to the Department of Environmental Resources.

Please send me a copy of the submission for our files.

**RE: Removal of Underground Storage Tanks
Philadelphia Liquid Packaging Facility**

Dear Ms. Showers:

Enclosed is an amended copy of Notification for Underground Storage Tanks for this facility which was submitted to your office in March 1986.

This is to advise that Tank No. 1, described in the Notification, was removed from the ground on November 3, 1988 for disposal.

If there are any questions, or if additional information is required, please contact me.

Sincerely,

Jim Chartrand
Plant Manager

RE: ID #5-115391

Dear Sir:

This facility no longer owns any underground or aboveground tanks used to contain regulated substances. Two underground tanks were removed from this facility in November 1988, and cut up for scrap.

The Department of Environmental Resources was notified and the City of Philadelphia inspected the site during excavation.

Sincerely,

Mario F. Domingues
Manager - Production Services

REGISTRATION OF STORAGE TANKS

IN ACCORDANCE WITH SECTIONS 303 AND 503 OF THE STORAGE TANK AND SPILL PREVENTION ACT, OWNERS OF REGULATED STORAGE TANKS ARE REQUIRED TO REGISTER THEIR TANKS WITH THE DEPARTMENT AND TO PAY A REGISTRATION FEE.

STATE USE ONLY

DATE RECEIVED: 11/1/89

AMOUNT RECEIVED: 0

INSTRUCTIONS

Use type or print in ink all items except "Signature" in Section V. This form is to be completed for each FACILITY which has regulated storage tanks. There are more than 10 underground or aboveground tanks, photocopy the reverse side of this form, and staple continuation sheets to this form.

Section I. Owner Information - Name, business mailing address and phone number of OWNER of the storage tank(s) at the facility. Please include county and Federal Identification Number, if none include your Social Security Number.

Section II. Type of Owner - Mark the appropriate box.

Section III. Facility Information - Name and physical location (not P.O. Box) of FACILITY. Please include county and township in which FACILITY is located. Include the Facility Identification No. if known.

Section IV. Type of Facility - Mark the appropriate box, if applicable.

Section V. Description of Storage Tanks - This section is for recording information about each regulated storage tank at the facility. Information for aboveground tanks is to be recorded in Part A. Information for underground tanks is to be recorded in Part B.

1. Tank Registration Number - The registration numbers to be recorded for underground tanks are "001", "002", "003", etc. The registration numbers to be recorded for aboveground tanks are "001A", "002A", "003A", etc. The "A" has already been printed on the form for your convenience.

2. Status - Indicate whether the tank is currently in use, temporarily out of use, or permanently out of use. Permanently out of use means properly closed in place with an inert solid material. Do not include tanks which have been removed.

3. Date of Installation - Specify the month and year the tank was completely installed. For instance, "0190", for January, 1990. If unknown, write "0000".

4. Capacity - Specify the total design or maximum capacity of the tank in GALLONS. If unknown, write "unknown".

5. Substance Currently or Last Stored - Indicate the substance(s), currently or last stored. If a hazardous substance, please indicate CERCLA Name and CAS Number. If Other is indicated, please specify.

6. Tank Has Been Issued Fire Safety Approval or Permit - Indicate whether the tank has been approved or permitted by the Pennsylvania State Police, Fire Marshal Division; or local agency under their jurisdiction for fire safety.

7. Registration Fee - Determine registration fee due PER TANK as indicated below. A registration fee is NOT required for tanks permanently out of use.

A. Aboveground tanks

1. Up to and including 5,000 gallons - \$50 per tank

2. 5,001 to and including 50,000 gallons - \$125 per tank

3. Greater than 50,000 gallons - \$300 per tank

B. Underground Tanks - \$50 per tank

Record the total registration fee due for all aboveground tanks in the space provided (A). Record the total registration fee due for all underground tanks in the space provided (B). Record the total registration fee due for all aboveground and underground tanks in the space provided (A + B). Submit a check or money order, for the total registration fee due, made payable to: Dept. of Environmental Resources.

Section VI. Certification - This section is to be completed by the OWNER. Please type or print the name and official title of the OWNER. The OWNER must also sign and record the date the application was examined.

Section VII. Nameplate Information - Complete this section for each aboveground tank greater than 5,000 gallon capacity. Use the same Tank Registration Number as identified in Section VI.

PLEASE SEND COMPLETED ORIGINAL FORM AND CHECK TO:

PA Department of Environmental Resources
Bureau of Water Quality Management
